Received 2011 July 14; published 2011 August 8

An error was made in the SAGE name of one of the objects in the published version of this paper. The full name of object J050603 should have been given as SAGE J050603.66–690358.9. The position for this object given in Table 1 of the published article is thereby wrong by 3 arcsec in declination.

In addition, there are some typographical errors in the 2MASS names given in Table 2. The corrected lines are given below.

None of the numerical values in the paper are affected by these errors.
